

AEGENT

Security Assessment

Assessment dated Jul 30th, 2026

Authored by AEGENT Security Team

SUMMARY

02 / 02

Executive Summary

AAGENT

Smart-contract security assessment

TYPE

DeFi / token infrastructure

ECOSYSTEM

BNB Chain (BSC)

METHODS

Manual analysis, static analysis, testing

LANGUAGE

Solidity 0.8.24

TIMELINE

Completed 30 July 2026

CODEBASE

Scope root 5c51c8e5df9126e3b0...

Vulnerability Summary

0 **Critical**
No Critical findings

0 **High**
No High findings

4 **Medium**
4 Resolved

1 **Low**
1 Resolved

4 **Informational**
4 Resolved

9 **Total Findings**

9 **Resolved**

All tracked code findings verified

Production activation remains conditional on deployment-address, role, reserve, RPC and funded-wallet acceptance gates.
