Release posture: NO OPEN FINDINGS IN CURRENT REGISTER

AEGENT Smart Contract Security Assessment

RELEASE POSTURE: NO OPEN FINDINGS IN CURRENT REGISTER · 0 OPEN BLOCKER(S).

CertiK assessed 11 production Solidity files for market state, purchase, reserve-backed redemption, proceeds custody and staking. All 9 tracked source-level findings are remediated and verified in the final frozen source. Production deployment, address/bytecode binding and continuing operations remain separate assurance gates. The assessment is bound to the evidence run, scope root and manifest printed below.

Metric	Current result
Evidence run	req223-20260731T134906328Z-c14331b422a13df5
Scope	11 production Solidity files / 4,103 lines
Scope root	cff85cbfc727272ccf234a69745299a4f73de007ee6ac7b6f9c6d6b9a31651e1
Evidence manifest	ae20c397eec2941560d6048ec03746068d3bbf086de780e0cd2256d989c3b902
Compilation	34 Solidity files
Chain 56	245 passing / 1 intentional exclusions
Chain 97	1 passing / 0 excluded
Coverage	Not collected in final frozen run
Static analysis	Solhint: 0 findings
Production npm audit	0 known advisories
Release posture	NO OPEN FINDINGS IN CURRENT REGISTER

CERTIK FORMAT / AEGENT EVIDENCE

The remediation-verification register is authoritative for this document: REGISTER: All 9 tracked source-level findings are remediated and verified in the final frozen source. Production deployment, address/bytecode binding and continuing operations remain separate assurance gates. Live deployment and continuing operational evidence remain separate activation gates.
